

Position: Centrifuge and Decanter Manufacturing Technician

Location: Independence, Kentucky

Position Type: Full Time

Reports to: Ian Beaudry

Purpose: Design and develop the start-up and optimization of centrifuge and decanter machine manufacturing lines

Primary Responsibilities: Plan, direct, implement, and maintain centrifuge and decanter machines based on customer specifications. Modify centrifuge and decanter machines as necessary to bring them up to specification. Provide after-sales technical assistance by monitoring the installed centrifuge and decanter machines to determine whether equipment redesign is necessary to maximize the customer's efficiency.

Additional Responsibilities: Conduct in person training on current and new centrifuge and decanter machines. Develop training materials for operation of centrifuge and decanter machines. Travel within the USA 2-3 weeks per month.

Qualifications: Candidates must have 24 months' experience in the following job duties as a Mechanical Engineering Technologist or Technician or in any related occupational title.

Eligibility:

- Must be legally authorized to work in the United States.
- Position requires a valid driver's license.
- If hired, candidates are subject to background check and drug screen.
